

GIRL GETS GIRL

A MOVIE BY THE CREATORS OF
GIRL SEEKS GIRL

Girl Gets Girl. Original title: De Chica en Chica
Language: Spanish/English

The feature film, *Girl Gets Girl* is a deliciously lighthearted comedy based on the successful web series *Girl Seeks Girl*. Brazil, Italy, France, China... no market could resist its freshness, originality, and the humbleness of our characters, the way they interacted and how they saw the world. American audiences connected so well to the *Girl Seeks Girl* that it became the first Spanish series to be sold on

DVD (Wolfe Video) in the United States. The series also received great acclaim in many national and international film festivals. *Girl Seeks Girl* is now also available on Netflix. Love, humor, sex, excitement... the same ingredients that made the *Girl Seeks Girl* series a hit will make *Girl Gets Girl* an addictive cocktail that audiences will enjoy repeatedly.

SYNOPSIS

Inés, a lesbian lothario, has lived the *American dream* in Miami for nine years. When she's caught cheating on her girlfriend, her world tumbles down. For the first time in years *Inés* asks herself what she wants in life... and she knows the answer. It's time to get back home, to get back to Madrid... even if it means she will have to face the huge mess she left behind. What *Inés* really wants is to finally succeed in seducing *Lola*, the hot straight best friend of

Verónica Psycho, the woman *Inés* left nine years ago... pregnant and on their wedding day! And as usual, *Inés* has chosen the worst time ever: she arrives in the middle of a party at *Lola* and *Verónica's* shared home. There she meets *Candela*, *Verónica's* daughter (and almost hers) and all the women and friends she once left. Will she runaway again or is it finally time to settle down? Much hilarity and chaos ensues as *Inés* finds her way back to her heart.
